## STUDENT LETTER EXCERPT

My name is Naranya or you can call me Frame. My parents have their own business. My sister is an interpreter at the hospital. She has been to The States before as an exchange student. My relationship with my family is great. We like to watch documentary movies and play sports like badminton or swimming when we have some free time. I like world history. I am in a Science club. It's very exciting to make a new experience regarding Science. Last year, I went to the Science and Mathematics camp with my classmates. We had a good time. We went rafting and it was my first time. I really enjoyed it. Whenever people first see me, they think that I am quiet but after they get to know me, they describe me as supportive, considerate, and caring. I am also a reasonable person. I always listen to other's opinion and decisions.

## PARENT LETTER EXCERPT

Frame is our youngest child. We have a great and extremely close relationship with both our children. However, because Frame is in her teenage years, sometimes she spends time with her friends by chatting or hanging out after school or weekend. But it requires our permission. Frame has many friends and is quite sociable. She loves joining school activities. She is interested in Chemistry and Biology. She plans to be a doctor. Frame is an outgoing individual. She is sometimes a careful and calculated thinker which makes her hesitant to make decisions to challenging situations or buying some things. Frame seems to be a little bit serious and willing to try hard to do everything. She loves trying new food. She needs some improvement in her English skills.
